Barcelona, communicating worlds

We are pleased to present ISAAC 2010, the 14th Biennial Conference of the International Society for Augmentative and Alternative Communication. We encourage you to submit your proposals for presentations at ISAAC 2010, to be held in the Spanish Mediterranean city of Barcelona.

Our logo, which was designed especially for the Conference by people with disabilities, is a graphic representation of some of the ideas we would like to share with you during the Conference. On one side of the logo we see a mosaic, like the one Gaudí used so frequently in his architecture, which represents for us the mosaic of cultures that is ISAAC. In this world of increasing global interconnections, we are working towards a mosaic of communication among cultures and languages; we envision a future of balanced colours and shapes, as creative and colourful as those in our logo.

The title of the Conference, "Communicating worlds," is a theme that holds a great deal of meaning. Our country has a long tradition in the field of AAC and we hope our efforts will result in an event as productive as past ISAAC conferences: a meeting of people from all over the world, full of vision, of new approaches, of achievements and of new ideas. Our shared goal is to make communication not a privilege, but a right. We look forward to receiving proposals that will enrich the content of the Scientific Program and contribute to the sharing of experiences in the field of AAC.

We will be waiting for you in 2010 in Barcelona, a city that has worked hard for accessibility, and a city that feels proud and happy to open its doors to everybody.

See you in Barcelona in 2010!!!

Cristina Larraz
Co-chairs of the ISAAC Biennial Conference Committee 2010

Jordi Escoin

Scientific information

The Program for the 14th Biennial Conference of ISAAC will be determined by the papers submitted by authors. The structure will follow the same guidelines as previous Conferences:

There will be three types of presentations, in the following formats:

- 70-minute oral presentation - includes 10 minutes for questions
- 30-minute oral presentation - includes 5 minutes for questions
- Poster presentation - authors will be required to be at their posters during specific scheduled periods

The program will also include Plenary Sessions, Debates and Workshops

Paper proposals must be submitted electronically.
To submit a proposal, please visit www.isaac2010.org

Topics of interest include:

| | |
|--------------------------------------|---|
| Accessibility | Diagnosis: Motor impairment |
| Advocacy | Diagnosis: Other |
| Age group: Adolescence | Diagnosis: Sensory deficits |
| Age group: Adult | Diagnosis: Traumatic brain injury |
| Age group: Child | Employment |
